### NOTES:

1. This indicator aligns with Oxford's green building targets, which have been in place for LEED since 2012.
  2. Office portfolio includes Class 'A' buildings or higher, and excludes data centres, third-party managed assets and historical building assets.
  3. LEED certifications are inclusive of LEED Core & Shell and LEED for Existing Buildings: Operations & Maintenance (Canadian and US versions).
  4. Assets previously certified under Core & Shell have been certified under Operations & Maintenance, and have not been double-counted.
  5. Portfolio is representative of all assets owned during the reporting period.
